Press Release:

Good Morning,

We at JN Motorsports would like to announce that we are changing direction for the remainder of the 2010 season and throughout the 2011 year and dedicating it to our troops, veterans and Military families. We're excited about utilizing our organization to assist those who made and continue to make our freedom possible. Our "Armed Forces Dragsters" theme is being developed to pay back to the troops and help promote public awareness of those organizations and charities that support our troops and veterans. JN Motorsports is proud to have Sign Masters of Virginia Beach design and vinyl wrap two of our race cars with an Armed Forces design that tells the story of **Honor, Courage and Commitment** of our men and women from the Revolutionary war to Afghanistan. Both "Armed Forces Dragsters" will provide the troops, veterans and organizations that support our men and women of the armed forces, an open invitation, rally point, to attend races or car shows. It will also provide a base to display their information to raise awareness for their organizations and causes plus their organization representatives would be welcomed and encouraged to participate. The uniqueness of these vehicles always draws a crowd and are engineering marvels which can enhance the magnetism of a display resulting with increased information awareness.

Events that we'll primarily focus on will be in the central and Hampton Roads area of Virginia, which has a strong military presents. We also do attend various shows and races in Ohio, North Carolina, Florida, Pennsylvania and New Jersey. Travel to special events or shows can be negotiated.

The owner Forest New and Crew Chief Jeff Jackson are Navy veterans plus all of our volunteer crew members are vets or sons and daughters of vets. Jeff Jackson is a retired Navy Master Chief of 32 years service with 26 years at sea. Forest New is an honorable discharged 12 year Navy second class petty officer and Gulf war vet. Both currently work closely with the military in their jobs and are extremely excited to support our Men and Women in uniform and all Veterans.

Opportunities are still available, but going fast, to help in this venture. We welcome any assistance to offset some of the cost in getting the word out to support these outstanding organizations that support our troops and veterans. We would proudly display your logo on the cars to highlight your support.

If you have an event that you would like to have the "Armed Forces Dragsters" to participate in or you would like to support our efforts, please contact us.

In closing, one basic thing you learn when you serve in the armed services is to continue the legacy of those who went before you. We hope these cars will shed a little light on all those outstanding men, women and families who have and are serving this great country.

Respectfully,  
JN Motorsports
